President of the IBD

Charlie Bamforth was honored to be inaugurated as the President of the Institute of Brewing and Distilling in June 2014 in Burton-on-Trent, England. He will remain in this role until June 2016.

To Charlie's left is the outgoing President Alan Barclay, recently retired from Diageo. To Charlie's right is Professor Katherine Smart, of SAB-Miller, who was installed as Deputy President and who was originally recruited into the brewing industry by Charlie in the late 1980's.

Brewing Profs reunited

There is a photo on Charlie's office wall in Davis showing three brewing professors bedecked in (the then) Institute of Brewing ties. The three professors concerned were delighted to reprise their photo at the recent Brewing Summit in Chicago, though only one of them was "tied up".

From left to right: Charlie Bamforth; Graham Stewart (retired from Heriot-Watt University); Ludwig Narziss (retired from The University of Munich, Weihenstephan).

(Thanks to Lydia Winkelmann for the top photograph.)

Charlie and Graham have remained close colleagues for years, but it was an especial delight for both of them to see Dr. Narziss after many years.

Alumni

Whilst in Chicago, Charlie was delighted to speak to UC Davis alumni at an event generously hosted by Lagunitas at their new brewery in the Windy City.

Where Are They Now? Part Twelve

Lyle Farrell has landed in San Francisco, and is working on BuzzWorks, a 30+ tap craft beer and sports tavern. Scheduled to open this fall, BuzzWorks will feature beers designed by Lyle as well as a rotating selection of beers from the Bay Area and beyond. While at Davis, he started a Beer page on Facebook which currently has almost 400,000 fans. The beer page can be found at www.facebook.com/beerherenow, and he is always on the lookout for new content!

Availability of brewery for trials

Our brewery is available for trial work. We are delighted that it is already being used to a significant extent. If you are interested in using the brewery for commercial studies, then please contact Charlie Bamforth for rates.

A word of mention for the second-placed beer – a milk stout that came from a team of one (and a Viticulture and Enology student at that!) - Andrea Gowen.

Iron Brew

Every year as part of the FST102B practical brewing class there is a competition in which small teams of students compete in the design, brewing and presentation of a beer. Judging is by expert professional brewers from companies large and small. For the first time this year, the winning beer went on to be brewed by the students at Sudwerk. Congratulations to Joe Williams and Mario Vargas

Thank you

...to the various companies that support us in so many ways. If you aren't already a supporter, we would love to hear from you – cwbamforth@ucdavis.edu – and Charlie can explain the benefits.
