

## **Nanny State?**

In the land of my birth they have lowered the recommended maxima on drinking alcohol.

<https://www.gov.uk/government/news/new-alcohol-guidelines-show-increased-risk-of-cancer>

Dame Sally Davies, Chief Medical Officer for England, went so far as to say (despite years of extensive global research that gives the opposite conclusion to her statement) that the moderate consumption of alcohol being good for you is “an old wives’ tale’.

For a reasoned interpretation of what has actually happened, go to
